

## Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

July 21, 2022

Dear King Members, Friends, and Family:

Although the Wisconsin Department of Health Services (DHS) continues to see low transmission levels of COVID-19 in Waupaca County many other areas of our state are seeing elevated levels of transmission today. We ask that you please practice healthy behaviors while in the community to mitigate the potential spread of the virus into our Home.

Since we last updated you on July 18, we have had 1 member and 1 employee test positive for COVID-19. Accounting for all recent recoveries, currently we have 6 cases of COVID-19 on campus (1 members, 5 employees).

Vaccines and boosters remain the best proven method to protect yourself and those around you. If you have not yet been vaccinated or boosted, we highly encourage you to do so and stay up to date, as the benefit of the vaccine degrades over time. According to Wisconsin DHS, unvaccinated people are more than twice as likely to be hospitalized due to COVID-19 than people who had received their booster doses, and nearly six times more likely to be hospitalized than people who had received their primary series.

If you are feeling unwell, please do not visit until you have had a chance to take a COVID-19 test and have fully recovered from your symptoms. If you are planning to visit our campus, all visitors are asked to wear an N95 or KN95 mask when in our buildings and perform a health check assessment upon arriving.

Thank you for your continued commitment to the health and safety of our Home.

Sincerely,

A handwritten signature in black ink that reads 'T. Servatius'.

Tammy Servatius  
Commandant
